## You See the Sun Every Day

It's easier than ever to capture the power of the sun and save, thanks to Clearway Community Solar - the largest Community Solar developer in the United States.

Clearway's local renewable power program enables your home or business to support clean energy generation without rooftop installation, maintenance, or upfront costs.

We build and operate offsite solar farms throughout Illinois, taking your roof, and your time and effort, out of the equation.

The solar energy generated every month is sent to your community, and in return you receive solar bill credits on your utility bill that reduce your electric charges.

## But You'll Never See It the Same Way

In just your first year as an Clearway Community Solar customer, your participation could support the environmental impact of:

Planting **7.9 acres** of forest in the U.S.

Offsetting greenhouse gas emissions of a car driving **16,471 miles** 

Switching 225 light bulbs to LEDs

Calculations based on estimated 9030 kWh of solar production in year one. Your solar production may vary. For calculations see http://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator

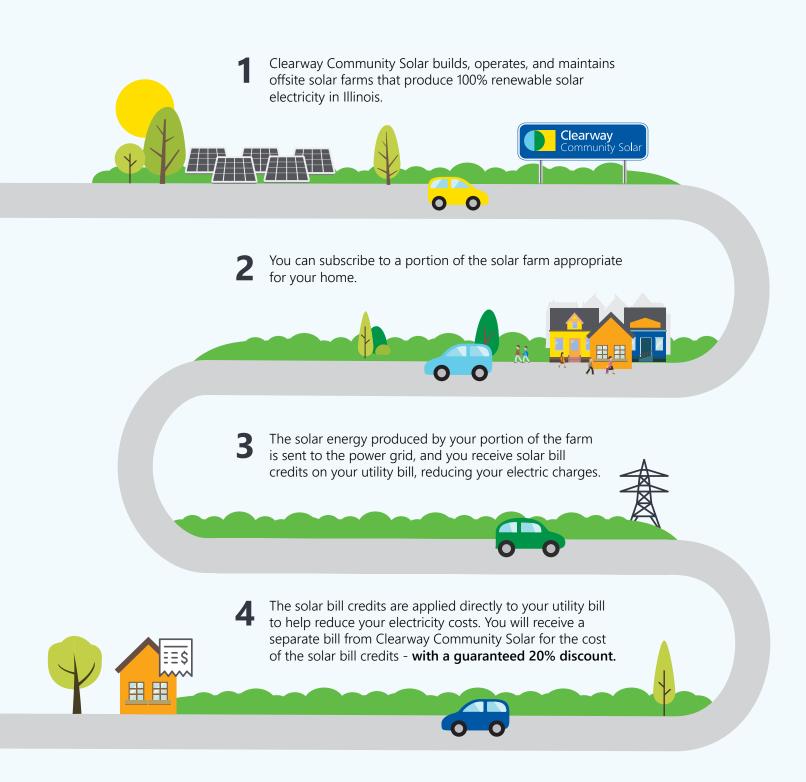

## **Clearway Community Solar: Renewable Energy with Convenience**

## **Benefits for You**

# Your Path to Saving with Renewable Power

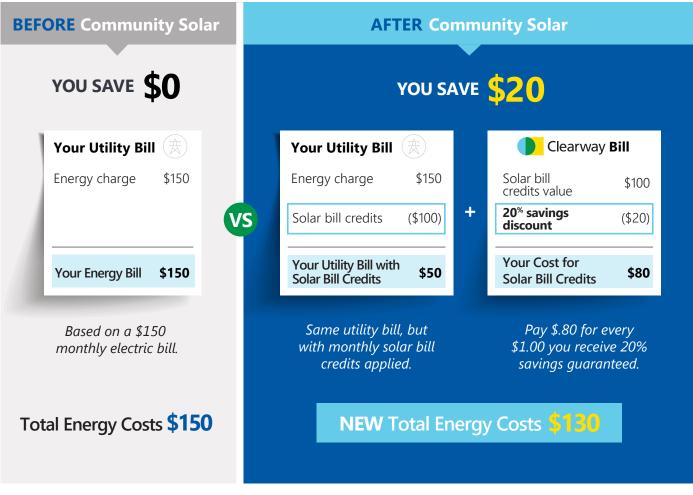

# Clearway Community Solar guarantees you will **save 20%** on the monthly cost of the solar energy generated by your subscription.

In return for your subscription, you receive solar bill credits automatically applied to your utility bill, reducing your costs.

Clearway will invoice you separately for the solar bill credits - at a guaranteed 20%<sup>1</sup> discount every month. That means for every \$1 received in solar bill credits, you are only charged \$.80.

Example for illustrative purposes only.

'Savings based on 20% discount on the solar bill credits generated by your allocation of the Community Solar system. Actual savings can vary month to month and would not apply in the event the customer does not receive credits or receives a reduced credit amount. Refer to the community solar contract for agreement terms. Subject to credit approval and a 20 year agreement term.

# Clearway Community Solar Billing: FAQs

## Q. Why do I receive a separate bill from Clearway?

A. Clearway's program is separate from your utility, and your energy supply is still through your local utility. Therefore, you will continue to receive your utility bill as usual, but now, your utility bill will show the solar bill credits resulting from your Clearway subscription, which reduce your utility supply charges. Clearway will send a separate bill to you for the solar bill credits with the guaranteed 20% discount.

#### Q. Do I still need to pay my utility bill?

A. Yes, you are still responsible for paying your monthly utility bill. Your utility supply charges will be lowered by the solar bill credits applied to your bill.

#### Q. How is my Clearway bill calculated?

A. Every month, you will receive solar bill credits on your utility bill, valued at your utility's monthly rate. Clearway will charge you the same rate for the cost of the solar bill credits, at a guaranteed **20% discount**. What this means is that for every \$1.00 you receive in solar bill credits that reduce your energy bill, you will only pay Clearway \$.80 for those solar bill credits.

#### **Q. What Are Solar Bill Credits?**

A. Every month, the solar energy generated by the solar farm is sent directly to the local power grid, and Clearway customers receive solar bill credits for the solar energy produced. The solar bill credits are applied directly to your utility bill, reducing the cost of electricity supply.

## Q. What if I Receive Energy Through a Local Retail Electric Provider?

A. In order to receive the guaranteed discount with Clearway's program and benefit from the energy savings, you will need to receive energy supply through your local utility (ComEd or Ameren) on the default supply rate. If you are receiving energy supply through a Retail Electric Provider, Clearway recommends that you switch to your local utility's default supply rate in order to receive the program's benefits.

# Q. How Do I Switch to My Utility's Default Supply Rate?

- **A.** Here are the steps to switch:
  - 1. Review the contract terms with your Retail Electric Provider to see if you have a cancellation fee.
  - If you have a cancellation fee, you can wait until your contract expires to cancel your contract since Clearway's solar farms are in development and construction stages.
  - 3. When your Retail Electric contract expires, simply inform the company that you do not wish to renew your contract, and wish to cancel. (*P.S. don't fall for any renewal plan gimmicks! Your Community Solar subscription will ensure your energy savings!*)
  - 4. Once you cancel your Retail Electric contract, you will automatically be placed on the default supply rate with your local utility.

#### Q. How Do I Pay My Clearway Bill?

A. Pay Online: You can pay your bill online at www. clearwaycommunitysolar.com – click on the green button in the right hand corner labeled "My Customer Portal." Log in to complete your payment.

**Pay by Phone:** You can call our customer support team at **1.855.712.7580** to complete payment by phone.
